## **Qualifier Rules and Regulations**

All events must be judged under the appropriate Kennel Club rules H & H(1) in force at the time of the event. Competitors entering any competition will be deemed to have agreed to abide by regulations.

All heats must take place at Kennel Club licensed shows

All Kennel Club supported competitions should be judged using standard marking.

If the entry for a heat exceeds the Kennel Club limit for a judge in a day, then the class will be equally split and another judge appointed for the second part. Qualifiers and reserves from that heat will be taken in equal proportion from each part, giving the total number originally required from that heat. Rosettes and awards remain unchanged if the heat is split.

Dogs entered in any heats must be eligible for the competition entered and judges retain the right to check the height of any dog or ask to see the height stated in the Kennel Club record book

Competitors can qualify for Small, Medium or Standard final but it must be with different dogs. The first final a handler qualifies a dog for will be the final that particular dog competes in at Olympia

### **The Kennel Club Olympia Agility Stakes supported by Pedigree**

Competitors may enter more than one dog in a heat and may qualify more than one dog for the semi-finals. Handlers may only qualify one dog for the final which will be the first dog qualified at the semi-final. Once a dog has qualified for the Final/Semi final further heats may be entered for competition.

The first ten dogs from each heat will go forward to the semi-finals at the Town and Country Festival at Stoneleigh and at the Royal Show, Stoneleigh. The semi-finalists from two of these heats will be put together to make a twenty competitor semi-final each day. The first five from each semi-final will go through to the final at Olympia.

This competition will be classified as grades 6-7 combined Agility and judged under Kennel Club regulations for standard classes

### **The Kennel Club Olympia Novice Agility Stakes supported by Pedigree**

This competition will be classified as grades 3-5 combined Agility and Judged under Kennel Club regulations for standard classes.

Dogs should be eligible to enter a Novice class at the time of qualifying for the semi-final. Any subsequent wins gained by the dog will not alter it's eligibility to compete in the semi-final

Competitors may enter more than one dog in a heat and may qualify more than one dog for the semi-finals. Handlers may only qualify one dog for the final which will be the highest placed dog at the semi-final. Once a dog has qualified for the semi-final/final, further heats may be entered for competition. Although any placing in these heats will not effect the dog's eligibility for the final/semi-final.

The first three placed dogs will be invited to compete in the semi-finals (venue TBA) and the first thirty placed dogs in the semi-final will be invited to compete in a further semi-final at Olympia. The top eight highest placed dogs will qualify for the final in the main ring at Olympia.

It is most important that handlers who gain a place in a heat with a previously qualified dog inform the Show secretary on the day of the show of this fact.

### **CELEBRATION LARGE DOG ADVANCED POWER AND SPEED**

**This class is only open for dogs eligible for Grade 7 Advanced competitions.**

Handlers may enter more than one dog in a heat and may qualify more than one dog for the final. Once a dog has qualified for the final further heats may be entered for competition.

The first 4 places from each heat will be invited to compete in the final.

It is most important that handlers who gain a place in a heat with a previously qualified dog should inform the show secretary on the day of the show of this fact.

The first section of the course will contain all the contact equipment plus the weaving poles, two rising spread jumps at maximum width and height, and the long jump at maximum length.

This first section need not be timed, but this is at the judge's discretion. It is recommended that a generous maximum time be applied.

The second section of the course will consist only of single pole hurdles, and will be against the clock. The object of the class is for the dog to negotiate the first part of the course clear, before proceeding across the start line to commence the second section of the course, which should be set as a fast speed jumping course.

#### **NOTE**

Only dogs that are clear on the first section can attempt the second section. Normal judging rules apply except that on the first section, handlers may line up their dogs before taking any obstacle without penalty. The winner will be decided in the usual way of the fastest time with the least faults.

It is advisable for judges to note that the original intention was for the jumping part of the course to be fast and free flowing to produce an exciting finish.

### **CELEBRATION CONNECTION LARGE DOG STAKES**

**This event must be classified as Grades 6 and 7 at least. Grades 3, 4, or 5 may be added at the secretary's discretion according to the anticipated entry.**

The first 4 places from each heat will be invited to compete in the final.

In the event that a heat is split the first 2 from each part will qualify regardless of how many parts. Competitors may enter more than one dog in a Heat, but may only qualify one dog for the final. The first dog that a handler qualifies with will run in the final. Qualifiers may enter further heats for competition providing they are eligible.

It is most important that handlers who gain a place in a heat with a previously qualified dog should inform the show secretary on the day of the show of this Fact.

**No tyre or dog walk will be used in this class.** A full set of rules can be found at <http://www.ward-agilitydogs.me.uk/easter/> A copy is also held with the secretary.
