### Competition Rules 2009

The 'Team Dash' is a competition for teams of four dogs and handlers, run as a relay over a simple jumping course. It is designed as a sprint event with spectator appeal; accessible to all grades of handlers and all heights of dogs. Teams of four large, four medium or four small dogs run over the same course at their own height, under identical conditions.

There are ten qualifying heats. The top two teams from each heat, regardless of height, qualify for a final comprising of twenty teams at Dashin' Dogs summer show: Any shortfall of teams (heats lost due to show cancellation etc) will be made up with qualifying teams from Dashin' Dogs summer show.

**It is a requirement of this competition that the course contains no traps, and is of 'fast and flowing style'.** A simple course such as a figure of eight, or a largely circular or helter-skelter style course is most appropriate.

1. The competition is classified under Kennel Club Regulations as Combined Grades 1 to 7 and Special, and will be held under KC Rules and Show Regulations H & H1 as in force at the date of the competition. Additional rules apply as described below. Competitors entering this Competition are deemed to have agreed to abide by these rules.
2. If the entry for a heat exceeds the KC limit for a judge in a day then the class will be equally and randomly split and another judge appointed for the second part. The winning team from each part will be regarded as the two qualifying teams from that heat.
3. All teams must consist of four dogs of the same height classification, handled by four separate handlers. Conditions remain the same for all teams except that the height of equipment will be appropriate to the height of the team of dogs competing.
4. Additions or substitutions to teams (handlers or dogs) are permitted, provided that (i) the substitute(s) is/are already entered in the heat (as a team member or reserve) (ii) rule (5) is not breached and (iii) alterations to teams are made before the run.
5. Handlers may compete in more than one team in a heat, providing they handle a different dog in each team. In the event of a handler being in both qualifying teams then their highest placed team will be deemed to have qualified. Dogs may only compete in one team in any given heat.
6. The course must contain two changeover lines, clearly marked on the ground, each with a minimum gate width of 4m. Dogs 1 & 3 start behind line A and finish behind line B. Dogs 2 & 4 start behind line B and finish behind line A. (Handler 1 may use a recall start). The inward and outward courses can be different, but both dogs from behind the same line must run the same course.
7. The course each dog is required to negotiate shall contain no less than 14 and no more than 20 obstacles.
8. This is a relay event and two suitable batons must be provided. All baton changes must be completed with the handlers and dogs behind the appropriate changeover line. Failure to comply with this, or an incorrect baton change (i.e. throwing or dropping the baton at changeover) will incur a penalty of 50 points on each occasion. Stewards may be appointed by the judge to adjudicate changeovers if required.
9. For each dog an elimination on the course incurs a single penalty of 100 points, however the judge will continue to mark any further faults on the remainder of the course and the faults of any remaining dogs.
10. The team with the fastest time and the least faults, wins. The top two teams from each heat qualify for the final. Once qualified, neither handlers nor dogs may compete in the remaining heats for that season except as Not For Competition. (N.F.C.)
11. Only the members of an original qualifying team (as specified on the scribe sheet at the time of the run) or the two original named reserves, will be allowed to compete in the final. Changes are at the organiser's discretion and only under exceptional circumstances.
12. In the event of a team being unavailable for the final, a reserve team will be called from the heat in which the qualifying team qualified.

### ***Class 45a and 45b PAIRS RELAY***

Large dogs will run over large height (650mm)

Small and medium dogs will run over small height (350mm)

Two dogs with separate handlers will compete over the same course of a minimum of sixteen obstacles. When the first dog/handler returns to the start/finish, there will be a baton change between handlers. No part of the second dog/handler must be over the start line, failure to observe this will incur a penalty of twenty faults. The baton must stay behind the start line at all times. The course must include: weaving poles, pipe tunnel and collapsible tunnel. No contact point obstacles to be used. Handlers may enter more than one dog in this class.
